## **UNHCR-IOM FLASH UPDATE #14**

ARREST AND DETENTION FLOW MONITORING (15 September 2023 – 20 January 2024)

#### INTRODUCTION

In response to the Ministry of Interior's (MoI) decision of 26 September 2023 to enact an "Illegal Foreigners' Repatriation Plan", UNHCR, the UN Refugee Agency and IOM, the UN Migration Agency, have collated their data on the arrest, detention, and deportation of Proof of Registration (PoR) holders, Afghan Citizen Card (ACC) holders, and undocumented Afghan nationals as well as on the outflows of Afghan nationals at the Torkham and Chaman border crossing points, to better understand the protection environment and movements of Afghan nationals returning to Afghanistan from Pakistan.

#### **CHRONOLOGY**

### 26 September 2023

"Illegal Foreigners' Repatriation Plan" issued internally by Mol, outlining the "repatriation" of Afghan nationals in three phases, starting with undocumented Afghan nationals, followed by ACC holders, and PoR holders.

#### 3 October 2023

Formal announcement by Mol of the deadline of 1 November 2023 for all "illegal foreigners" to leave Pakistan.

#### 10 October 2023

Government-wide circular issued by the Chief Commissionerate for Afghan Refugees (CCAR) under the Ministry of States and Frontier Regions (SAFRON), stating that PoR and ACC holders can only be repatriated on a voluntary basis.

#### 17 & 27 October 2023

Press release issued by UN Special Rapporteurs and statement made by the Office of the High Commission for Human Rights (OHCHR), urging the Government of Pakistan to stop planned mass deportation of Afghan nationals in Pakistan.

### 30 October 2023

Notification issued by the Mol instructing all relevant authorities to enact the "Illegal Foreigners' Repatriation Plan" as of 1 November 2023.

### 3 November 2023

Joint press release issued by UNHCR, IOM, and UNICEF calling for the protection of Afghans seeking safety in Pakistan.

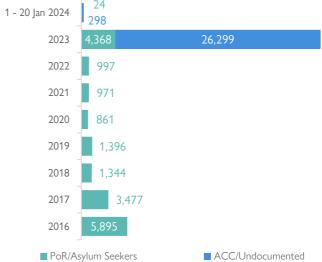

### 10 November 2023

Notification issued by SAFRON that the validity of PoR cards is extended to 31 December 2023.

#### 6 December 2023

Press release issued by UN Special Rapporteurs calling for the protection of Afghan nationals in Pakistan.

ARREST AND DETENTION BY YEARS

### % OF ARRESTS BY LOCATION (1 October 2023 – 20 January 2024)

#### **KEY FINDINGS AND LIMITATIONS**

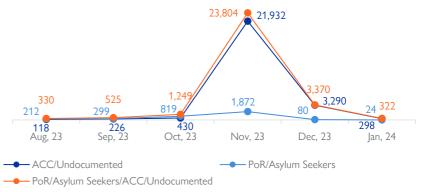

It is important to note that prior to 2023, there was no data collected on the arrest and detention of ACC holders or undocumented Afghan nationals. Since January 2023, IOM has started to collect this data, which should be considered indicative at this point. The figures, particularly of undocumented Afghan nationals, should be considered underreported.

- While UNHCR and IOM continue to document arrests and detentions, the rates have significantly decreased during the months of December 2023 and January 2024, in comparison to their peak in November 2023.
- In the past two weeks, the reported rate of arrest for undocumented Afghan nationals has been highest in the province of Sindh. However, since the start of 1 October 2023, the overall rate of arrest remains highest for the province of Balochistan.

ARREST AND DETENTION FLOW MONITORING (15 September 2023 – 20 January 2024)

UNHCR and IOM enumerator collecting flow monitoring data at Torkham border. [IOM Pakistan 2024]

#### **KEY FINDINGS**

- During the past two weeks, UNHCR and IOM's Displacement Tracking Matrix (DTM) estimate 9,324 Afghans returned through the Torkham, Ghulam Khan (located in Khyber Pakhtunkhwa), Chaman, Badini and Bahramcha (located in Balochistan) border crossing points to Afghanistan.
- Cumulatively, from 15 September 2023 to 20 January 2024, 504,397 individuals have returned.
- The number of returnees and deportations have decreased significantly since the first week of November 2023, with numbers being comparable to the period before 15 September 2023.
- Most of the returnees were undocumented Afghans (90%), followed by PoR holders (8%) and ACC holders (2%).
- Three per cent of the return flow can be considered as vulnerable persons, including chronically ill people, elderly individuals, persons with disabilities, and others.
- Fear of arrest (89%) remains the most common reason to return to Afghanistan among returnees.
- Returnees were most likely to return from Quetta (16%) and Peshawar (13%) in Pakistan and intend to go to Nangarhar (23%), Kandahar (21%) and Kabul (13%) in Afghanistan.

#### **DOCUMENTATION – TOTAL NUMBER OF RETURNEES**

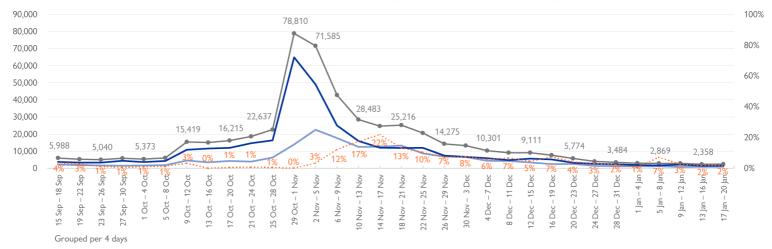

### **DOCUMENTATION - TOTAL DEPORTEES**

### TOTAL RETURNS AND % DEPORTATIONS | 15 SEPTEMBER 2023 - 20 JANUARY 2024

- Total Returns (Chaman + Torkham + Ghulam Khan + Badini + Bahramcha) - Returns Khyber Pakhtunkhwa (Torkham + Ghulam Khan)

Returns Balochistan (Chaman + Badini + Bahramcha) .......... % Deportations (Chaman + Torkham + Ghulam Khan + Badini + Bahramcha)
