# **UNHCR-IOM FLASH UPDATE #19**

ARREST AND DETENTION FLOW MONITORING (15 September 2023 – 4 May 2024)

### INTRODUCTION

In response to the Ministry of Interior's (MoI) decision of 26 September 2023 to enact an "Illegal Foreigners' Repatriation Plan", UNHCR, the UN Refugee Agency and IOM, the UN Migration Agency, have collated their data on the arrest, detention, and deportation of Proof of Registration (PoR) holders, Afghan Citizen Card (ACC) holders, and undocumented Afghan nationals as well as on the outflows of Afghan nationals at the Torkham and Chaman border crossing points, to better understand the protection environment and movements of Afghan nationals returning to Afghanistan from Pakistan.

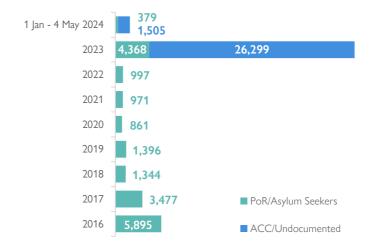

While the Government of Pakistan has yet to halt the "IFRP", the rate of arrest, detention, deportation, and returns has decreased significantly since its peak in October and November 2023. Furthermore, on 26 April 2024, the Ministry of States and Frontier Regions (SAFRON) issued a notification that the validity of the POR card has been extended until 30 June 2024.

#### **KEY FINDINGS AND LIMITATIONS**

It is important to note that prior to 2023, there was no data collected on the arrest and detention of ACC holders or undocumented Afghan nationals. Since January 2023, IOM has started to collect this data, which should be considered indicative at this point. The figures, particularly of undocumented Afghan nationals, should be considered underreported.

- The month of April 2024 saw the overall reported rates of arrest and detention more than double, in comparison to the previous month of March 2024.
- In April 2024, the rate of arrest and detention was almost three times higher for ACC holders and undocumented Afghans, then it was for PoR holders and asylum-seekers.
- Since the start of 1 October 2023, the overall reported rate of arrest and detention remains highest for the province of Balochistan
- Across Pakistan, the top three districts for arrest and detention between January 1st and May 4th are Karachi (Sindh), Pishin (Balochistan) and Chaghai (Balochistan).

# CUMULATIVE – 2023 AND 2024

575,028 (100%)

TOTAL NUMBER OF
RETURNS

Period	Total Number of Returns	Total Returnees	Total Facilitated Returnees	Total Deportees
15 Sep – 31 Dec 2023	490,891	436,600	24,971	29,320
1 Jan – 4 May 2024	84,137	77,098	5,140	1,899
Total	575,028	513,698	30,111	31,219

# **KEY FINDINGS**

- During the last two weeks, UNHCR and IOM's Displacement Tracking Matrix (DTM) estimate 17,712 Afghans returned through the Torkham, Ghulam Khan (located in Khyber Pakhtunkhwa), Chaman, Badini and Bahramcha (located in Balochistan) border crossing points to Afghanistan.
- Cumulatively, from 15 September 2023 to 4 May 2024, 575,028 individuals have returned.
- The number of returns in the last two weeks (21 April 4 May; 17,712) increased by 95 per cent compared to returns in the two weeks prior to that (6 - 20 April; 9,060). The number of returns during this reporting period has seen a significant rise, surpassing the return figures recorded since January 2024.
- Most of the returnees were undocumented Afghans (89%), followed by PoR holders (9%) and ACC holders (2%). Majority of the POR returns are facilitated by UNHCR.
- Vulnerable persons including chronically ill people, elderly individuals, persons with disabilities, and others account for four percent of the population.
- Fear of arrest (89%) remains the most common reason to return to Afghanistan among undocumented/ACC holders while PoR holders cite social economic challenges.
- Returnees were most likely to return from Quetta (20%) and Peshawar (17%) in Pakistan and intend to go to Nangarhar (25%), Kandahar (23%) and Kabul (16%) in Afghanistan.
